MANAGEMENT DISCUSSION & ANALYSIS REPORT:

The Board takes pleasure in presenting your Company's 25th Annual Report for the year 2015-16 along with the Compliance Report on Corporate Governance.

INDUSTRY STRUCTURE & DEVELOPMENT:

Sponge iron is an intermediate product as source of metalics for electric steel making. Other sources of metalics are either steel scrap or pig iron from Blast furnace.

The Sponge iron industry in India is divided into two types, those who are integrated with steel making and those in merchant sector. Suraj Products Limited belongs to the merchant sector.

In the Modern Economy Steel is a vital component to the development. The strength of steel industry shows the growth & development of all major industrial economies. Consumption of steel is a significant indicator of socio-economic development of the people of the country. Since incubation period for setting up integrated steel plants is large, the growth in demand of steel during the year was met generally by secondary steel sector or through import of steel. One of the sources of metallic's for secondary steel making sector is sponge iron and pig iron. Sponge iron industry, therefore, witnessed continued development for its product during the year. The trend is likely to continue in future.

COMPANY'S PERFORMANCE:

Gross Turnover:	₹	625,142,472
Profit before Taxation	: ₹	6,005,622
Profit after Taxation	: ₹	4,294,609

OPPORTUNIES, THREATS & FUTURE OUTLOOK:

a) OPPORTUNITIES:

Growth in the steel demand has strong correlation with growth in GDP of Nation. The Indian economy was expected to grow at a growth rate of 7 % of GDP but unfortunately the same could not happen. As a result the steel demand is unlikely to grow at expected pace. The demand for sponge Iron in medium term shall be at healthy level due to closure of many sponge iron plants for want of iron ore. Increase in price at international market and unavailability of quality scrap provides huge opportunities for growth

SURAJ PRODUCTS LIMITED

of Sponge Iron industry. Company is located in Orissa which has abundant stock of Iron ore and coal, the basic raw material for sponge iron industry & hence is ideally located to take advantage of the growing demand.

b) THREATS:

The cost of iron ore and coal constitute more than 80% of cost of production. Therefore the profitability of the Company depends on market price of these raw materials. The only way to reduce the cost of iron ore and coal is to have captive mines for these raw materials, which the company does not have. The emergence of large players may pose threat due to their economies of scale.

RISK AND CONCERN:

Increasing trend in raw material prices and non-availability of good quality raw material is the area of concern for the Company. Company is keeping close watch on these and taking appropriate steps timely.

SEGMENT- WISE/ PRODUCT- WISE PERFORMANCE:

During the year, the Company produced 24,814 MT of sponge iron compared to 28,955 MT in the previous year. The production of pig iron for the year was 13,689 MT as compared to last year's production of 12,151 MT.

ANNEXURE - B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

We have audited the internal financial controls over financial reporting of Suraj Products Limited ("the Company") as of 31st March, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls

SURAJ PRODUCTS LIMITED

over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES**A. Basis of Preparation of Financial Statements:**

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory Accounting Standards as prescribed under section 133 of the Companies Act 2013 ('Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and guidelines issued by Securities Exchange Board of India (SEBI). Accounting Policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the economic policy hitherto in use.

B. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and amounts of assets and liabilities and disclosure of contingent liabilities at the date of financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ.

C. Recognition of Income & Expenditure:

Sales are recognized, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers. Expenses are accounted for on accrual basis and provision is made for all expenses.

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

D. Fixed Assets & Depreciation:

Fixed Assets are stated at cost net of recoverable taxes and includes amount added on revaluation, less accumulated depreciation and impairment loss, if any. All costs, including financing costs till commencement of commercial production are capitalized.

- c) Refractory Assets are depreciated over the useful life of four years based on estimates approved by the management.
- d) Depreciation useful lives and residual values are reviewed periodically, at each financial year end.
- e) The carrying amount of assets whose remaining useful life is nil after retaining the residual value of five percent where available has been adjusted against retained earnings.
- f) No depreciation is charged on the assets disposed off / discarded during the year.

- b) Cost of Finished goods includes the cost of raw material, cost of conversion and other manufacturing costs incurred in bringing the inventories to their present location and condition and excise duty.

Provision for current taxation is measured at the amount expected to be paid to the tax authorities in accordance with the provisions of Income Tax Act, 1961.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognized as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Deferred Tax is recognized subject to consideration of prudence on timing difference being the difference between taxable incomes and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

I. Borrowing Cost:

Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction/ development of the qualifying asset up to the date of capitalisation of such asset is added to the cost of the assets

J. Impairment of Assets:

The carrying values of assets/cash generating units at each Balance Sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognized, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognized for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss, except in case of revalued assets.

K. Earning Per Share:

Basic Earnings per Share is calculated by dividing the net profit or loss after tax for the year attributable to the shareholders by the weighted average number of equity shares outstanding during the year. For purpose of calculating diluted earning per share, the net profit or loss for the year and weighted number of shares outstanding during the year are adjusted for the effects of dilutive potential equity shares.

L. Foreign Currency Transaction:

Foreign Currency Transaction is recorded in the reporting currency, by applying to foreign currency amount the exchange rate at the transaction date. The exchange difference arising on revenue transactions are charged to the Statement of Profit and Loss.

M. Provisions and Contingent Liabilities:

Provisions are recognized when the company has a legal and constructive obligation as a result of a past event, for which it is probable that a cash outflow will be required and a reliable estimate can be made of the amount of obligation.

Contingent Liabilities are disclosed when the company has a possible obligation or a present obligation and it is probable that a cash outflow will not be required to settle the obligation.

N. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.
