OPERATIONAL REVIEW:

The Company adopted focused approach on improving its volumes, operational efficiencies and operating facilities at optimum levels. The multiprolonged strategy has helped the Company in seizing the opportunity offered by the pick-up in the economic activities in the country especially the steel intensive sectors like infrastructure, construction etc.

During the year, the Company produced 32,688 MT (Previous Year 38,706 MT) of Sponge Iron The Company produced 33,682 MT (previous year 20,111 MT) of Pig Iron. The Company produced 35,100 MT (previous year 27,467 MT) of MS Billet. The Company produced 29,180.45 MT (previous year- 22,389 MT) of TMT Bars.

FUTURE PROSPECTS:

The Global steel demand is expected to grow by 8% in the year 2023 as a result of economic recovery post COVID-19 pandemic supported by government spending and stimulus packages. The Indian steel industry is also expected to remain buoyant amidst strong domestic demand recovery, accommodative government policies and export opportunities. Through its policies, the Government significantly increased

capital expenditure on infrastructure projects to build back medium-term demand and aggressively implemented supply-side measures to prepare the economy for a sustained long-term expansion. With the vaccination programme having covered the majority of the population, recovering economic momentum and the likely long-term benefits of supply-side reforms in the pipeline, the Indian Economy is in a good position to witness GDP Growth of around 8.0% to 8.5% in 2022-23.

DIVIDEND:

Board of Directors of the Company recommend payment of final dividend @ 15 % i.e. ₹ 1.50 per equity share of ₹ 10/- each, subject to approval of shareholders at the forthcoming AGM.

DIVIDEND DISTRIBUTION POLICY:

In terms of Regulation 43A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, ('SEBI Listing Regulations') the Board of Directors of the Company (the 'Board') formulated and adopted the Dividend Distribution Policy (the 'Policy').

The Board has recommended dividend based on the parameters laid down in the Dividend Distribution Policy and dividend will be paid out of the profits for the year. The dividend on Equity Shares is subject to the approval of the Shareholders at the Annual General Meeting ('AGM'). The dividend, if approved would result in a cash outflow of ₹ 1.71 crores. Pursuant to the Finance Act, 2020, dividend income is taxable in the hands of the shareholders effective April 1, 2020, and the Company is required to deduct tax at source from dividend paid to the Members at prescribed rates as per the Income Tax Act, 1961.

MANAGEMENT DISCUSSION & ANALYSIS REPORT:

I. OVERVIEW:

The objective of this report is to convey the Management's perspective on the external environment and steel industry, as well as strategy, operating and financial performance, industrial relations, risks and opportunities and internal control systems and their adequacy in the Company during the financial year 2022-23. This should be read in conjunction with the Company's financial statements, the schedules and notes thereto and other information included elsewhere in the report. The Company's financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) complying with the requirements of Companies Act 2013 (Act) and regulations issued by the Securities and Exchange Board of India (SEBI), each as amended from time to time.

II. EXTERNAL ENVIRONMENT:**1. Global Economy:**

Global GDP growth is projected to decline from 3.4% in 2022 to 2.8% in 2023 due to factors such as the Russia-Ukraine war and Central Banks raising interest rates to control inflation. The reemergence of COVID-19 variants in China and the ongoing war in Ukraine hampered growth in 2022. Sanctions on Russia, a major energy supplier, further hindered growth and strained supply chains. The war exacerbated inflation in developed economies. However, the recent reopening of economies may lead to a faster recovery in 2023.

2. Economic outlook:

The factors that contributed to inflation in 2022, such as rising commodity prices, expansive fiscal and monetary policies and disruptions in the supply chain, are now reversing. Global inflation is projected to decrease from 8.7% in 2022 to 7% in 2023, primarily due to lower commodity prices. Inflation picked in the United States and Europe in early 2023 but is declining in other major economies like Japan, China and India. Europe continues to face the threat of a recession as wages and consumer spending have significantly declined. Inflation is being fuelled by elevated natural gas prices, which have in turn reduced purchasing power.

3. Indian Economy:

Despite the massive global slowdown caused by Covid-19 and the continued geopolitical uncertainties due to the Russia-Ukraine conflict, the Indian economy is on a growth track and heading towards a bright future. India's economic growth in FY 23 has been principally led by private consumption and capital formation. The production linked incentive scheme is expected to boost the domestic manufacturing sector. Overall industrial capex is set to rise to nearly ₹5.7 lakhs crore on average between the fiscal years 2023 and 2027 compared to ₹3.7 lakh crore over the past five fiscals. Nearly half of this incremental capex will be driven by PLI and new-age sectors. While industrial capex will get a push from government policies and new-age opportunities spending will continue to drive 12-16% growth in capex next fiscal, given targets under the National Infrastructure pipeline.

III. STEEL INDUSTRY:**1. Global Steel Industry:**

Global steel demand is expected to increase by 1% and to reach 1815 MnT driven by select regions like India, Southeast Asia and Middle East. Steel demand in China is expected to remain stable in 2023 while it's likely to recover by 0.2% in the developed world. Demand in Europe and Commonwealth nations is however expected to decline. The recovery in Global demand on account of reversing of inflationary trends and increase in infrastructure spending is expected to be slower than earlier projections.

2. Demand Outlook:

The Short-Range Outlook by World Steel had forecasted that steel demand will grow by 4.6% in 2022 and reach 1,855.4 MnT. It is expected that in 2023, the steel demand will see a further increase of 2.2% to 1,896.4 Mnt. The current forecast assumes that, with the progress of vaccinations across the World, the spread of variants of the COVID-19 virus will be less damaging and disruptive than seen in previous waves. Strong manufacturing activity bolstered by pent-up demand will remain as a significant contributor. The developed economies have outperformed the expectations by a larger margin than the developing economies, reflecting the positive benefit of higher vaccination rates and Government support measures. In the emerging economies, especially in Asia, the recovery momentum was interrupted by the resurgence of pandemic.

SURAJ PRODUCTS LIMITED

While the manufacturing sector's recovery remained more resilient to the new waves of infection than expected, supply-side constraints led to a levelling off the recovery in the second half of the year thereby preventing a stronger recovery in 2023. However with high backlog orders combined with a rebuilding of inventories and further progress in vaccinations in developing Countries, we expect steel demand will continue to recover in 2024. Persistent rising inflation, continued slow vaccination progress in developing Countries and further growth deceleration in China continues to pose threat to this forecast.

3. Indian Steel Industry:

The growth story for India remains intact despite global headwinds. The growth can be attributed to continuous Government focus on infrastructure and consumption-led demand, despite India facing supply disruption due to raw material constraints and volatility of prices. In FY 2022-23, the automotive and special products sector started off on a positive note with robust demand for passenger vehicles due to demand resurfacing with the easing of semiconductor supply situation and new model launches. Strong growth in commercial vehicle demand continued, supported by replacement demand, improvement in overall macroeconomic environment, pick-up in infrastructure, mining and construction activities and healthy fleet utilization levels. The automotive sector ended the year with overall y-o-y growth of 24% and 27% in PV and CV segments respectively. Growth in the construction sector is being propelled by infrastructure growth over the medium-to-long-term since the building construction and industrial sector has recorded sedate growth rates.

UPLIFTING RURAL DEMAND:

The Indian Government is endeavoring to create world class infrastructure in the Country. It is planning to invest ₹25 trillion in infrastructure over next three years; ₹8 trillion will be used to develop 27 industrial clusters, while ₹5 trillion will be used for building roads, railways and port connectivity.

CHANGING RURAL DEMAND:

Indian's rural sector is slowly undergoing a transformation. Consumption patterns of people are slowly changing, facilitated by improved networking. People in villages are seeking information proactively from multiple sources, which also include social media.

INDUSTRY STRUCTURE & DEVELOPMENT:

Sponge iron & pig iron are intermediate products as source of metalics for electric steel making. Other source of metalics is steel scrap. The Sponge iron industry in India is divided into two types, those who are integrated with steel making and those in merchant sector. Suraj Products Limited is slowly graduating from a merchant plant to a steel producer.

In the Modern Economy Steel is a vital component to the development. The strength of steel industry shows the growth & development of all major industrial economies. Consumption of steel is a significant indicator of socio-economic development of the people of the country. Since incubation period for setting up integrated steel plants is large, the growth in demand of steel during the year was met generally by secondary steel sector or through import of steel. One of the sources of metallic's for secondary steel making sector is sponge iron and pig iron. Sponge iron industry, therefore, witnessed continued development for its product during the year. The trend is likely to continue in future. With the anticipated increase in rural spending and infrastructure, the steel demand is likely to be good.

OPPORTUNITIES, THREATS & FUTURE OUTLOOK:**a) OPPORTUNITIES:**

The sponge iron sector is linked to the Nation's steel sector in such a way that a rise in demand for steel would increase the demand for sponge iron. The various sectors that are expected to contribute to the growing demand are infrastructure, roads, railways, bridges, airports, industrial plants, buildings, automobiles etc.

The renewed importance given by Government on affordable housing, roads, sagarmala projects and other infrastructure projects are expected to create steel demand, this will augur well for steel industry. As per the National Steel Policy crafted during FY 2017-18, the crude steel production target for India was set at 300 MnT by 2030.

b) THREATS:

Most of the steel producing industries are expected to witness an increase in crude steel output due to production increase post COVID-19 pandemic which had severely affected economies and industries globally, including steel industry.

The cost of iron ore and coal constitute more than 80% of cost of production. Therefore the profitability of the Company depends on market price of these raw materials. The only way to reduce the cost of iron ore and coal is to have captive mines for these raw materials, which the company does not have. The emergence of large players may pose threat due to their economies of scale.

c) OUTLOOK:

The basic aim of the Company is able to produce steel as per market requirements and able to manage market trend to its advantage. Opportunities abound in growing economies and opening of economy in India has created opportunities for Indian enterprise to move beyond national boundaries as well as to create productive assets.

Since infrastructure has linkages to other industries like cement, brick and steel through backward and forward linkages. The outlook for the industry looks reasonable, since India has good iron ore deposits, skilled manpower and growing demand for steel. The improved demand is expected to continue in the fiscal as well as on the back of ongoing Government funded infrastructure projects. In spite of a downturn in the Global steel demand, Indian steel demand could survive showing an upward trend, setting a road ahead for the growth of the domestic industry in the long run. The upward trend is expected to be continued on account of fiscal measures taken by the Government such as infusion of funds for development of infrastructure sector, introduction of stimulus packages for revival of industry besides factors like increase in consumption and production of steel, upcoming infrastructure and Greenfield projects, stabilization of prices etc.

RISK AND CONCERN:

The key risks are global steel demand scenario, domestic steel demand, economic slowdown, increase in financial charges, non-availability (or undue increase in cost) of raw materials such as iron ore, coal and labour etc., coupled with market fluctuations. The Company does not apprehend any inherent risk in long run, with exception of certain primary concerns that have affected the progress of our industry in general like:

- a. Shortage of Labour
- b. Rising manpower and material costs
- c. Approvals and procedural difficulties
- d. Lack of adequate sources of finance.

SURAJ PRODUCTS LIMITED

Apart from this the industry is highly labour intensive and is subject to stringent Labour Laws.

SEGMENT- WISE/ PRODUCT- WISE PERFORMANCE:

In accordance with the Accounting Standard 17 issued by the Companies (Accounting Standards), Rules, 2006 including any further amendments thereof, the Company has a single business segment having four products namely Sponge iron, Pig Iron and MS Ingot/Billets & TMT Bar.

COMPANY'S PERFORMANCE:

Gross Turnover	:	₹ 28,530.95 Lakhs
Profit before Taxation	:	₹ 3,571.46 Lakhs
Profit after Taxation	:	₹ 2600.81 Lakhs

INTERNAL CONTROL SYSTEM & THEIR ADEQUACY:

The company has adequate and effective internal control system commensurate with its size and nature of business to provide reasonable assurance that all assets are safeguarded, transactions are authorized, recorded and reported properly, applicable statutes, the Suraj Products Limited code of conduct and Corporate policies are duly complied with Internal audit and other control are reviewed periodically by Audit Committee.

HUMAN RESOURCES AND INDUSTRIAL RELATIONS:

Company possesses good quality of human resources. The Board wishes to place on record its appreciation for the sustained efforts and devoted contribution made by all the employees for its success. The Human Resources Department of the Company focuses on improving the work culture, employee engagement, effectiveness and efficiency. Various employee engagement inventions carried out in the year has resulted in better performance. On the safety front, the Company is focused on ensuring the safety of all employees. No Loss Time injury was reported during the year. The Company has maintained healthy and cordial industrial relations during the year.

DISCLOSURES UNDER SEXUAL HARASSMENT OF WOMEN AT WORKPLACE (PREVENTION, PROHIBITION & REDRESSAL) ACT, 2013:

The Company is committed to provide a safe and conducive work environment to its employees. During the year under review, no case of sexual harassment was reported.

SAFETY MEASURES:

Suraj Products Limited has taken various initiatives during the year in order to safeguard the health of the workers. Unsafe conditions in the plant are regularly inspected by the safety committee and deficiencies are attended immediately.

SAFETY TRAINING:

Training of various Safety Standards is imparted to all employees.

HEALTH CHECK- UP:

About 10 Medical Camps with qualified and experience medical practitioners were conducted in nearby villages and about 650 patients availed the service.

CAUTIONARY STATEMENT:

The Management Discussion and Analysis Report may contain statements that might be considered forward looking. These statements are subject to certain risks and uncertainties. Actual results may differ materially from those expressed in the statement as important factors could influence the Company's operations such as Government Policies, political and economic developments and such other factors are risk inherent to the Company's growth.

Reports on the Audited Financial Statements

Opinion

We have audited the accompanying financial statements of SURAJ PRODUCTS LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow statement and the statement of changes in equity for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2023, its profit including and other Comprehensive Income, its cash flows and the Changes in Equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the standards on auditing (SAs) as specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and informing our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

SI. No.	Key Audit Matter	Auditor's Response
1	<i>Evaluation of uncertain tax positions</i>	<i>Principal Audit Procedures</i>
	The Company has material uncertain tax positions including matters under dispute which involves significant judgment to determine the possible outcome of these disputes.	Our procedure included, amongst others, assessing the appropriateness of management's assumptions and estimates in relation to uncertain tax positions, challenging those assumptions and considering advice received by management from external parties to support their position. We have involved our tax specialists to consider management's assessment of the tax positions and related provision/liability accruals when necessary. We concur with management estimates and the outcome of their procedures to determine the relevant provision/ liability.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors of the Company are responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the act') with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including comprehensive income and cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (IND AS) specified under Section 133 of the Act, read with companies (Indian Accounting Standards) rules, 2015, as amended. This responsibility includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; design, implementation and maintenance of adequate internal financial controls, that are operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the financial year ended March 31, 2023 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The financial statements of the Company for the year ended March 31, 2022, included in these financial statements, have been audited by the predecessor auditor who expressed an unmodified opinion on those statements on May 20, 2022.

Report on Other legal and Regulatory Requirements

Annexure A referred to in paragraph 2(f) under heading Report on Other Legal and Regulatory Requirements of our Report of even date to the members of Suraj Products Limited on the financial statements of the Company for the year ended 31st March, 2023

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of ('the Company') as of 31st March, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and –completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2023 based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

NOTES TO FINANCIAL STATEMENTS**1. CORPORATE INFORMATION**

Suraj Products Limited ('SPL' or 'the company') is a public limited company incorporated in India with its registered office at Vill: Barpali, PO; Kesarmal, Rajgangpur, Dist: Sundargarh, Odisha is engaged in production of Sponge Iron by direct reduction of Iron Ore, Pig Iron, Ingots/Billet, TMT Bars & Generation of Power. Company share are listed & traded in Bombay stock Exchange and Calcutta Stock Exchange.

2. BASIS OF PREPARATION & PRESENTATION**A. Statement of Compliance with Ind AS:**

The Financial Statements have been prepared in accordance with Ind ASs notified under the Companies (Indian Accounting Standards) Rules, 2015 & the provisions of the Act (to the extent notified) and guidelines issued by Securities Exchange Board of India (SEBI).

The Financial statements for the year ended 31st March, 2023 were approved by the Board of Directors and authorized for issue on 29th day of May, 2023.

B. Historical Cost Convention:

The financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities that are measured at fair value;
- Defined benefit plans - plan assets measured at fair value;

C. Use of Estimates & Judgments:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and amounts of assets and liabilities and disclosure of contingent liabilities at the date of financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ.

Key sources of estimation of uncertainty at the date of financial statements, which may cause a material adjustment to the carrying amounts of assets & liabilities within the next financial year, are in respect of useful life of property, plant & equipment, valuation of deferred tax liabilities, provisions and contingent liabilities. The accounting policies followed by the company for the same have been disclosed in subsequent notes.

D. Revenue Recognition:

Sales are recognized on the basis of the fair value of the consideration, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers. Expenses are accounted for on accrual basis and provision is made for all expenses.

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on, time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the asset to that asset's net carrying amount on initial recognition.

E. Leases:

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a year of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right- of- use assets

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Leasehold Land - 90 years.

Lease Liabilities

The Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments

F. Property, Plant & Equipment & Depreciation:

Property, Plant & Equipment is stated at cost net of recoverable taxes less accumulated depreciation and cumulative impairment loss, if any. All costs, including financing costs till commencement of commercial production are capitalized.

- a) Depreciation has been provided on pro-rata basis on assets acquired after 01.04.2002 on a written down value Method and on assets acquired prior to 01.04.2002 on a straight-line basis method. Freehold land is not depreciated.
- b) The Company depreciates its Property, plant & equipment over the useful life in the manner prescribed in Schedule II of the Act.
- c) Depreciation, useful lives and residual values are reviewed periodically, at each financial year end.
- d) No depreciation is charged on the assets disposed off / discarded during the year.

G. Intangible Assets:

Intangible Assets are stated at cost of acquisition net of recoverable taxes less accumulated depreciation and cumulative impairment loss, if any. All costs, including financing costs till commencement of commercial production are capitalized.

H. Inventories:

Inventories are valued at Cost or Net Realisable Value whichever is lower.

SURAJ PRODUCTS LIMITED

- a) In case of Raw Material, Stores and spares, consumables, the cost includes duties and taxes (net of GST wherever applicable) and is arrived on weighted average cost basis.
- b) Cost of Finished goods includes the cost of raw material, cost of conversion and other manufacturing costs incurred in bringing the inventories to their present location and condition.

I. Employees Benefits: Short Term Obligation

Liabilities for wages and salaries, including non monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employees service up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

In view of Ind AS-19 earned leave which cannot be carried forward to future periods are "short term" benefit only if the employees are entitled to either encash or utilize the benefits during the period of twelve months following the end of the accounting period (when they became entitled to the leave). In other cases the benefit is required to be treated as "long term". According to the policy of the company, no leave can be carried forward beyond the end of the financial year. Accordingly all leave granted has been accounted for in the current financial year.

Post Employment obligation

The company operates the following post employments scheme:

- (i) Defined benefit plans such as gratuity, and
- (ii) Defined contribution plan such as provident fund, etc.

Defined Benefit Plans

The liabilities or assets recognized in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefits obligation at the end of the reporting period less the fair value of plan assets. The defined benefits obligation is calculated annually by actuaries using the projected unit credit method.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in other comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognized in the statement of profit and loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in the statement of profit and loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Defined Contribution plan

The Company makes defined contribution to Employees Provident Fund Organisation (EPFO), Pension Fund, and Employees State Insurance (ESI), which are accounted on accrual basis as expenses in the statement of Profit and Loss in the period during which the related services are rendered by employees.

J. Accounting For Taxation: Current Tax:

Provision for current taxation is measured at the amount expected to be paid to the tax authorities in accordance with the provisions of Income Tax Act, 1961.

Deferred Tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognized as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

K. Borrowing Cost:

Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction/ development of the qualifying asset up to the date of capitalisation of such asset is added to the cost of the assets.

L. Impairment of Assets:

The carrying values of assets/cash generating units at each Balance Sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognized, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognized for an asset in earlier accounting periods no longer exists or may have decreased such reversal of impairment loss is recognized in the Statement of Profit and Loss.

M. Earnings Per Share:

Basic Earnings per Share is calculated by dividing the net profit or loss after tax for the year attributable to the shareholders by the weighted average number of equity shares outstanding during the year. For purpose of calculating diluted earnings per share, the net profit or loss for the year and weighted number of shares outstanding during the year are adjusted for the effects of dilutive potential equity shares.

SURAJ PRODUCTS LIMITED

N. Provisions and Contingent Liabilities:

Provisions are recognized when the company has a legal or constructive obligation as a result of a past event, for which it is probable that a cash outflow will be required and a reliable estimate can be made of the amount of obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Contingent Liabilities are disclosed when the company has a possible obligation or a present obligation and it is probable that a cash outflow will not be required to settle the obligation.

O. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

P. Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are measured at fair value except when amortised cost approach is used. Transaction costs that is directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition): the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income ("FVTOCI") (except for debt instruments that are designated as at fair value through profit or loss on initial recognition): the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income is recognised in profit or loss for FVTOCI debt instruments. All other financial assets are subsequently measured at fair value.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL. Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

Financial liabilities and equity instruments Classification as debt or equity

Debt and equity instruments issued by Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Financial liabilities

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method.

Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' Line item. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability. All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

43. Financial Assets & Liabilities

a) Fair Market Value Disclosure: The management considers that the carrying amounts of financial assets and financial liabilities recognised in the financial statements approximate their fair values.

b) Financial Risk Management Objectives:

The company's management monitors and manages the financial risks relating to the operations of the company. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

(i) Market Risk

Market risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market prices. Such change in value of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes.

SURAJ PRODUCTS LIMITED

Foreign Currency Risk

The company has its operations based mainly within the country. So, the company does not have any significant foreign currency risks.

Interest Rate Risk

The company has investments mainly in fixed interest bearing investments. Hence the company is not significantly exposed to interest rate risks. The interest rate on borrowings ranged from 9.00% to 9.50% in the previous year & 7.50% to 8.00% in the current year.

(ii) Credit Risk

Credit Risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to credit risk is on account of trade receivables amounting to Rs. 12.03 crores as at 31st March, 2023 and Rs. 6.34 crores as at 31st March, 2022. Trade receivables are typically unsecured and derived from revenue earned from customers. Credit risk is managed by establishing credit limits and reviewing the credit approvals provided to various customers. The company has no expected credit loss as at 31st March, 2023.

(iii) Liquidity Risk

Liquidity risk is the risk that the company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or other financial asset.

The company's principal sources of liquidity are cash and cash equivalents, bank fixed deposits and the cash that is generated from operations.

The company manages liquidity risk by maintaining adequate reserves and by continuously monitoring forecast and actual cash flows. The company generates sufficient cash flows from current operations which together with the available cash and cash equivalents provide liquidity both in the short-term as well as in the long-term.
