### **MANAGEMENT DISCUSSION & ANALYSIS REPORT:**

The Board takes pleasure in presenting your Company's 24th Annual report for the year 2014-15 along with the compliance report on Corporate Governance.

### **INDUSTRY STRUCTURE & DEVELOPMENT:**

Sponge iron is an intermediate product as source of metalics for electric steel making. Other sources of metalics are either steel scrap or pig iron from Blast furnace.

The Sponge iron industry in India is divided into two types, those who are integrated with steel making and those in merchant sector. Suraj Products Limited belongs to the merchant sector.

In the Modern Economy Steel is a vital component to the development. The strength of steel industry shows the growth & development of all major industrial economies. Consumption of steel is a significant indicator of socio-economic development of the people of the country. Since incubation period for setting up integrated steel plants is large, the growth in demand of steel during the year was met generally by secondary steel sector or through import of steel. One of the sources of metallic's for secondary steel making sector is sponge iron and pig iron. Sponge iron industry, therefore, witnessed continued development for its product during the year. The trend is likely to continue in future.

### **COMPANY'S PERFORMANCE:**

Gross Turnover	:	₹ 1,027,959,365
Profit before Taxation	:	₹ 37,675,001
Profit after Taxation	:	₹ 25,282,556

### **OPPORTUNIES, THREATS & FUTURE OUTLOOK:**

#### **a) OPPORTUNITIES:**

Growth in the steel demand has strong correlation with growth in GDP of Nation. The Indian economy was expected to grow at a growth rate of 7 % of GDP but unfortunately the same could not happen. As a result the steel demand is unlikely to grow at expected pace. The demand for sponge Iron in medium term shall be at healthy level due to closure of many sponge iron plants for want of iron ore. Increase in price at international market and unavailability of quality scrap provides huge opportunities for growth

## **SURAJ PRODUCTS LIMITED**

of Sponge Iron industry. Company is located in Orissa which has abundant stock of Iron ore and coal, the basic raw material for sponge iron industry & hence is ideally located to take advantage of the growing demand.

The only way to reduce the cost of iron ore and coal is to have captive mines for these raw materials, which the company does not have. The emergence of large players may pose threat due to their economies of scale.

### **RISK AND CONCERN:**

Pig iron sales during the year totaled to 12,109 MT in comparison to last year's sale of 11,668 MT. Due to higher price of coke, the production of pig iron was adversely affected. Company is continuously focusing on the quality consistency and better marketing strategies.

**SIGNIFICANT ACCOUNTING POLICIES****A. Basis of Preparation of Financial Statements:**

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory Accounting Standards as prescribed under section 133 of the Companies Act 2013 ('Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and guidelines issued by Securities Exchange Board of India (SEBI). Accounting Policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the economic policy hitherto in use.

**B. Use of Estimates:**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and amounts of assets and liabilities and disclosure of contingent liabilities at the date of financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ.

**C. Recognition of Income & Expenditure:**

Sales are recognized, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers. Expenses are accounted for on accrual basis and provision is made for all expenses.

Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.

**D. Fixed Assets & Depreciation:**

Fixed Assets are stated at cost net of recoverable taxes and includes amount added on revaluation, less accumulated depreciation and impairment loss, if any. All costs, including financing costs till commencement of commercial production are capitalized.

**Depreciation**

- a) Depreciation has been provided on pro-rata basis on assets acquired after 01.04.2002 on a Written down Value Method and on assets acquired prior to 01.04.2002 on a straight Line Basis Method.
- b) Effective 1st April, 2014, the Company depreciates its fixed assets over the useful life in the manner prescribed in Schedule II of the Act, as against the earlier practice of depreciating at the rates prescribed in Schedule XIV of the Companies Act, 1956.
- c) Refractory Assets are depreciated over the useful life of four years based on estimates approved by the management.
- d) Depreciation useful lives and residual values are reviewed periodically, at each financial year end.
- e) The carrying amount of assets whose remaining useful life is nil after retaining the residual value of five percent where available has been adjusted against retained earnings.
- f) No depreciation is charged on the assets disposed off / discarded during the year.

**Intangible Assets**

Intangible Assets are stated at cost of acquisition net of recoverable taxes and includes amount added on revaluation, less accumulated depreciation and impairment loss, if any. All costs, including financing costs till commencement of commercial production are capitalized.

**E. Investments:**

Long Term Investments are stated at cost, except where there is a diminution in value other than temporary in nature.

**F. Inventories:**

Inventories are valued at Cost or Net Realisable Value whichever is lower.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognized as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

#### **J. Impairment of Assets:**

The carrying values of assets/cash generating units at each Balance Sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognized, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognized for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss, except in case of revalued assets.

#### **K. Earning Per Share:**

Basic Earnings per Share is calculated by dividing the net profit or loss after tax for the year attributable to the shareholders by the weighted average number of equity shares outstanding during the year. For purpose of calculating diluted earning per share, the net profit or loss for the year and weighted number of shares outstanding during the year are adjusted for the effects of dilutive potential equity shares.

#### **L. Foreign Currency Transaction:**

#### **M. Provisions and Contingent Liabilities:**

Provisions are recognized when the company has a legal and constructive obligation as a result of a past event, for which it is probable that a cash outflow will be required and a reliable estimate can be made of the amount of obligation.

Contingent Liabilities are disclosed when the company has a possible obligation or a present obligation and it is probable that a cash outflow will not be required to settle the obligation.

#### **N. Cash Flow Statement**
